Miss Kate Fisher and her trained horse "Wonder" will appear at Tucker Hall next Monday night in the play of "Mazeppa."

The present financial condition of the Atlantic and North Carolina Railroad is said to be better now than at any time since the war.

The weather yesterday was decidedly fluctuating—no rain, in keeping with the last week, but decidedly changeable at best.

There will be a meeting of the Oak City Council Friends of Temperance in the Hall in the Briggs' building this evening at 7:30 o'clock. Parties interested will take due notice thereof.

An editor illustrates the prevailing extravagance of people, now-a-days by calling attention to the costly baby carriages in use, while when he was a baby they hauled him around by the hair of his head.

FOURTH DAY'S PROCEEDINGS.

Various reports from Committees were read and adopted.

The report of the Committee on the Orphan Asylum was completed and adopted.

Mr J. H. Mills accepted the position of Superintendent of the Asylum for another twelve months.

Resolution of thanks to railroads and steamboats and to the hotels of this city, for courtesies extended, were adopted.

The committee on accounts and claims made its report, which was adopted.

An invitation from F. P. Hobgood to visit the Baptist Female Seminary was adopted.

Adjourned for dinner.

The Lodge met at 3 o'clock in the afternoon, and after the consideration of certain Committee reports, adjourned *sine die*.

U. S. CIRCUIT COURT.—This Court met yesterday at 10 o'clock, Judge Brooks presiding. The jury in the case of Murphy & Co., of Greene county, vs. the Old Dominion Insurance Company, of Richmond, Va., rendered a verdict in favor of the plaintiff in the sum of $1,500, and interest from the time the insurance was due.

The case of Seymour & Co., of New York, vs. the Western Railroad, was taken up on Wednesday and continued yesterday—Messrs. Phillips, Fuller, Barnes and Hinsdale appearing for the plaintiffs, and Messrs. McKay and McRae for the defendant. It appears that the plaintiffs threw up the contract after a short time in connection with the building of the road, and entered suit against the company for alleged failure to comply with the terms entered into. The suit was continued on the docket until the war. It has been recently revived, and probably stands as the oldest case before the Court.

CHANGE.—The Howe Machine Company have removed from their old stand on Fayetteville st. to the Shoe Store of Chas. D. Heartt, three doors from their former place of business. Their business throughout the State, has increased so that the agents are compelled to be absent most of the time, and they have placed their business in charge of Mr. Heartt, who will cheerfully attend to the wants of the patrons of the Howe. A full supply of machines, needles, oil, attachments, &c., constantly on hand. All are invited to examine the new improved light running Howe before purchasing elsewhere.

SENTENCE COMMUTED.—Austin Hill, col., sentenced to be hung to-day in Northampton county for complicity in the murder last winter of Mr. Presson, keeper of the railroad bridge at Weldon, was yesterday commuted to imprisonment to hard labor for life by Gov. Brogden, upon certain representations to His Excellency. It will be remembered that one of the murderers on being hung acknowledged his own guilt, but claimed that Austin Hill was innocent of the crime charged.

EMANCIPATION CELEBRATION.—The *Era* (Radical) of this city, gives the following information to the negroes of this locality:

"We are requested by the President, Mr H. H. Lane, to state that the first day of January, 1876, will be appropriately observed in this city, with procession, speeches, &c. The colored people in both town and country are earnestly requested to rally in their strength and make the celebration of the thirteenth anniversary of emancipation what it should be."

A. P. BRYAN, ESQ.—We were shown a telegram yesterday evening from this gentleman, so favorably known in connection with the Express business in this city, in which he says that he is rapidly recovering his health, and that he expects to return by the first of January next. He is at present in Branford, Connecticut.

The 80th regular meeting of the Mechanics' Building and Loan Association will be held in the Court House on this Friday evening the 10th inst. at 7½ o'clock. A full attendance desired.

MEETING OF THE BOARD OF ALDERMEN—THE QUESTION OF FUNDING THE CITY DEBT.—An adjourned meeting of the Board of Aldermen of the city was held last night.

The following ordinance providing for the funding of the debt of the city was adopted:

Ordinance providing for the submission to the voters of the city of Raleigh the question of an issue of $70,000 in bonds.

Whereas, It is provided in section 13, chapter 80, of Private Acts of 1874-'75, that the present debt of the city of Raleigh shall be funded, and since by Art. VII., sec. 7, of the Constitution, it was declared that "no city, &c., shall loan its credit, pledge its faith, &c., unless by a vote of a majority of the qualified voters therein;" and,

Whereas, a meeting of the citizens of Raleigh of all parties recommended to the Board of Aldermen to submit to the voters of the city a proposition to fund the bonds of the city yet out standing which have never been submitted to the voters, and the legally issued scrip, upon the basis of 75 cents on the dollar; now therefore, in pursuance of said recommendation,

Be it ordained, that the question be submitted to the voters of the city of Raleigh whether the city shall issue its bonds to the amount of seventy thousand dollars, payable in twenty and thirty years after date, bearing interest at six per cent per annum, the coupons being receivable for taxes. These bonds to be issued in lieu of the city bonds now outstanding which have never been submitted to a vote of the qualified voters of the city, and of the city scrip or city orders issued by former Board of Commissioners upon the basis of seventy-five cents for every dollar, principal and interest of said bonds and scrip: Provided, that no bond or scrip shall be funded until it has been approved by a Committee of the Board of Aldermen.

Be it further ordained, That the issue of bonds if approved shall be made under direction of the Board of Aldermen, in denominations from $50, to $500. The authority granted shall cease and determine on the 1st day of January, 1877, and the funding shall cease on that date.

Be it further ordained, That the question of the issue of the bonds shall be submitted to a vote of the qualified electors of the city on the 14th day of January 1876, those approving such issue voting approved, and those not approving voting "not approved." Books of registration for their election shall be opened as follows:

1st Ward—R. P. Howell Registrar, at Prairie Building, Wilmington St.

2nd Ward—J. H. Kirkham Registrar, at W. H. Martin's house, near corner South and Blount streets.

3rd Ward—C. D. Upchurch Registrar, at Court House.

4th Ward—Norfleet Dunston Registrar, at shop corner of Dawson and Cabarrus streets.

5th Ward—W. B. Bell Registrar, at Uzzle's store, corner of Jones and Dawson streets.

The following shall, together with the Registrars, act as Judges of election and the following shall be the polling places:

1st Ward—Alfred Upchurch, S. D. Harrison, James G. Burt and Sam. Rayner. Polling place, HOWELL House, Blount street.

2nd Ward—Wm. Hayes, O. M. Roon, George N. Williams and L. C. Manly. Polling place, Jenkins' shop, Blount street near Tupper's church.

3rd Ward—C. Hutchings, J. J. Lewis, H. T. Clawson and Payton Brown. Polling place, Court House.

4th Ward—E. O. Macey, Nelson Blake, Henderson Dsunton and Wm. Hester. Polling place, Dunston's shop.

5th Ward—Howard Heartt, J. M. Betts, Jno. C. Gorman and George Poe. Polling place, Alsey Bever's shop, corner Salisbury and Lane streets.

Who shall hold the election under the general election laws of the State, shall count and compare the votes, and shall certify the result under their hands and seals to the clerk of the Board of Aldermen.

Be it ordained that 200 copies of this ordinance be published in hand bill and posted in the city; that the Registrars shall be paid three cents for each name registered.

Resolved, That the Mayor shall have authority to fill all vacancies in registry and inspectors if any occur and to change the polling places if necessary.

An important report from the Chief of the Fire Department was submitted and a resolution adopted to purchase a new hose reel for the Rescue Company, 300 feet of hose for the Victor, 3 dozen buckets for the Bucket Company, and the arrangement of a truck for the latter company.

The cow question was slaughtered, the motion to keep them off the streets being voted down, [And thus that cotton eating cow now has the full liberty of the street, to commit any depredation she may desire.]

THE CHINESE AND THE CALIFORNIA SWAMPS.—Although the presence of the Chinese in California is a matter which is not altogether agreeable to the average Californian, their usefulness in one respect is generally acknowledged. In the work of constructing levees their services have been most valuable, as they will work in water without a murmur, and dig in mud and slime where a white man could not be induced to work for love or money. They have, in fact, monopolized the business, but heretofore have shown no disposition to purchase the lands reclaimed by theis labors, although always ready to rent it on shares. Of late, however the Chinese have begun to buy swamp lands in large quanities, one sale of 2,000 acres having very recently been affected at good figures. Operations have been commenced on the lands purchased, preparing them for a crop, and those acquainted with the race think they will "astonish the natives" when they get to their harvesting time. It is expected that as the Chinese becomes owners of these swamp lands a better and more enduring system of reclamation will ensue. They will keep their levees strong and safe, thus benefiting others besides themselves, and will be in other ways a vauable element in the community.

Col. Shelton of Buncombe on the Western N. C. Tobacco Crop.

At a meeting of the Executive Committee of the North Carolina Agricultural Society held in this city on the 9th inst., Col. Shelton of Asheville was called upon for information as to his experience in the culture of tobacco in the county West of the Blue Ridge. He has done so in the following remarks which we present to our readers.

Col. Shelton is a Virginian, and lived until the past few years in the most favored part of the Virginia tobacco region. He carried the experience of many years with him to the county of Buncombe, and has conducted his operation on a large and successful scale. He is emphatically the pioneer of tobacco culture in Buncombe, for though long raised there, it was only for home nse, never for market.

The following is an extract from his remarks:

EXTRACT OF THE REMARKS OF COL. SHELTON.

The culture of tobacco in Western North Carolina is now a settled fact. Thousands of pounds of fancy wrappers are now produced, where ten years ago, the crop was scarcely known. I am not here to speak of the advantages of our transmontane section, but of the culture of tobacco. New things are continually developing in this important branch of agriculture. It would doubtless be interesting to this committee to trace the meanderings of this almost romantic subbject. The effect it has upon and will exercise over the finances of this government will be admitted by all. That it is a useless article in the abstract, I am willing to admit, but the money it brings, the interest it developes, cannot be lightly spoken of.

I will now only revert to the fact that I have made this useless crop my life time study. I have made many assaults on old fogyism in my career, but the most important is to tell the tobacco planter that he has wasted thousands of dollars in curing a useless cumbrous stalk when he could have done otherwise; to tell him that he only sends the leaf to market, and that all the money he spends upon the stalk is money thrown away, and that he ought to divide his grist instead of carrying a stone in the other end of the sack. There is one point I wish particularly to call his attention to. He loses ten per cent of the weight of his tobacco by curing it on the stalk. Nature's God has ordained that all vegetation in dying or drying up sends its substance back to its original stalk. The corn, the grass, the leaves everything speaks this truth in lessons not to be misunderstood. Can tobacco be exempted from this law of nature? I have experience on this subject.

100 plants of green tobacco weighed 230 pounds, one half of this was cured on the stalk, and one half off the stalk. The naked stalks were also cured.

	lbs.	oz.
Result: that cured off the stalk—	12.	10
Stalks weighed	6.	11
	19.	5
Cured on the stalk,	11.	06
Stalk on this top,		8.
	19.	6.

You will observe that the grand total is just the same except one ounce, and in this lot cured off the stalk I gain 15 ounces or something like 8 per cent on the leaf, while the other gains one pound, but that gain is in a worthless stalk. Comment is unnecessary.

Circular to the Ladies of North Carolina.

Ladies:—Eighty years ago, when the State University was founded, and when all the friends of education in the State were looking with fond and glad anticipation upon the new enterprise, a few of the ladies of that day most conspicuous for social position, refinement and culture came forward and presented the infant Institution with a pair of globes and a quadrant as an expression of their sympathy and cordial good wishes for its success. It was done by them without solicitation and was well and kindly done, and their names are preserved to-day with affectionate respect and gratitude at Chapel Hill.

Will the ladies of North Carolina in 1875 do as much for the college which has educated so many of their grandfathers, fathers, lovers, brothers, husbands and sons for more than two generations, which, in educating and elevating the men has also equally though indirectly elevated and benefitted the women of the State; and which, after a period of neglect, is again revived to renew its good work for the land we love? Have the ladies of 1875 as much patriotism, as much intelligence, as much liberality, as much public spirit as the ladies of 1795? We believe they have more. Will they now step forward, with grace, and dignity all their own, and lend their aid and countenance to the gentlemen of the State in their attempt to refit and refurnish their University, so as to put the advantages it offers our young men on an equal footing with those of any of the first class colleges in the Union? This appeal is made to you, Ladies, in the confident hope that you will.

The University scientific apparatus is in ruins. The gentlemen of the Faculty are managing out of the wreck to make shift for the present, but every wreck in its course brings them nearer the time when a new outfit for all the Departments of Natural Science will be imperatively and unavoidably necessary.

What arrangements the Executive Committee of the Board of Trustees may be able to make to meet this call is uncertain. They talk of employing an agent to canvass the State. Meanwhile, the way is clear for the ladies of the State, by personal effort in soliciting subscriptions, and by giving liberally themselves, to secure to themselves the honor of supplying the pressing need, and present the college with an apparatus second to none in this country. Our boys need it, and they must have it.

The ladies can do this, if they will. There is no doubt of that. Their influence and their example have worked miracles before now, and can do it again. If the matrons will sanction, and if the young ladies will take it up, organize systematically in every city and town, select committees, and give their time seriously for a few weeks to the work of raising money, they can easily make the University a Christmas present of ten thousand dollars ($10.000)

We suggest that the ladies of each town should select some instrument or apparatus to present; their names to be engraved on it for their great-grandchildren to read. For instance the ladies of ——— might choose to give a fine telescope; the ladies of ——— say a Holtz electric machine; the ladies of ——— a pair of $200 globes; the ladies of ———, an Atwood's Machine; the ladies of ———, a Ruhmkoff's coil; the ladies of ———, a Galvanic Battery; the ladies of ———, a set of Wall Maps; the ladies of ———, a set of Instruments for illustrating sound, light, electricity, &c.; the ladies of ———, a Magic Lantern for scientific illustration; the ladies of ———, might undertake to furnish the Department of Analytical Chemistry (Prof. Kimberly's); and the ladies of ———, that of Elementary Chemistry, Geology and Mineralogy (Prof. Redd's.) The articles suggested cost, each, from $50 to $200, or $400. The chemicals and small pieces needed in the Labratories, too numerous to mention, would cost from $150 to $500. Each of the Departments of Natural Science needs from $2500 to $3,000 expended on it.

This is the work we set before our ladies. It appeals to the best feelings and best principles of our common nature, and calls into exercise every generous and tender emotion. Done, and well done, promptly and nobly, it will make the heart of every honest man and boy in North Carolina throb higher with pride in our women, and resolve to be worthy of them.

No act of generosity or tenderness by woman for man ever went unappreciated or unrewarded, and whatever exalts and refines and adorns man, must also inevitably secure her culture. Neither is it a work only for ourselves, but is to be a permanent benefit to our posterity in many ways and for generations to come. Nor do we urge it as a good investment. Is it not an offering prompted by gratitude, and peculiarly graceful and beautiful to those who were so lately in arms, and counted not their lives dear in defence of their country?

The women of the South owe much to the men of the South, and no women have ever been able to boast of truer or more gallant defenders than the women of North Carolina. They repair annually in crowds to lay fresh wreaths on the graves where their young heroes sleep. Will they not consider this work, also, a pious duty, and make this offering to the youth who remain, and who are now at great disadvantage, to repair the loss and waste of war and endeavor to place the State abreast with the culture of the age? We believe that they will.

Communications may be addressed to Mrs. C. P. Spencer, Chapel Hill, N. C., agent for the Executive Committee, who will cheerfully co operate with the ladies in any way they may suggest. X.

THE EVIL FRUITS OF WEAK DIGESTION.—There is no pathological fact more clearly ascertained than that the most formidable phases of nervous disease are directly traceable to imperfect digestion. Insomnia, with its train of direful consequences, proceeds more frequently from weakness of the stomach than from any other cause. Mere sedatives are powerless to cure nervousness, and soon cease to palliate its symptoms. The true way to strengthen the nervous system is to invigorate the digestive and assimilative organs, upon whose unobstructed action its equilibrium is absolutely dependent. The daily use of Hostetter's Stomach Bitters will do more to brace and sootne the weakened and irritated nerves, and induce sound, refreshing sleep—nature's grand catholicon—than all the so called nervines to be found in the pharmacopœia or out of it. A wineglassful of the Bitters should be taken before each meal.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only *one dollar* per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. *Always Cash.*

THE Democratic triumph in Mississippi has cut down the public printing from $60,000 to $15,000, and republican papers are generally suspending. We observe in this State that government pap keeps several of them in a healthy condition, therefore it is, "long live the republican administration."

THE House took a recess on Wednesday, and therefore we are without congressional items in this issue. The clerkships have not yet been filled, and our North Carolina friends who are on the anxious bench must wait until next week before their doubts are satisfied. North Carolina, modest as usual, makes but few claims for office. She certainly merits some consideration.

THE whiskey frauds are developing themselves everywhere, and apparently the blow struck in St. Louis is a mere surface one. There is no telling how much more is to be unearthed. Investigations in Milwaukie show the same state of things. In Chicago the same, and so at every whiskey centre. And as developments go on, they make it certain that collusion with high officials in Washington city made these operations safe. It is not necessary to implicate the President in these things. Probably he is entirely innocent. But it is certain that protection and participation was had with those who gave character to the administration, and who in turn were protected by party influences. Therefore that party must fall before the country can be relieved from its burdens.

SOMETHING FOR SOUTHERN CONGRESSMEN.

The gauge of the Southern Road is five feet; that is, all south of North Carolina. The Southern Pacific, then, to be a *southern* road, must conform to that guage. The Northern guage is four feet, eight inches and a half. An effort was made when the Texas Pacific rail road bill was before Congress last winter to secure the adoption of the five foot gauge. On the principle that if it was a Southern road in fact, its gauge ought to conform to its connections. This Tom Scott steadily opposed, insisting upon a gauge which would suit his northern connections. Is not this enough to show his purposes?

THE New York *Times* correspondent throws out a suggestion which makes the relation of the two parties in the Senate even closer than we calculated a few days ago. Bruce of Mississippi, Dorsey of Arkansas, and Spencer of Alabama, are alleged to have secured their seats by bribery, and corruption. There would be little difficulty of proof. Then the claims of Pinchback will probably be rejected. The *Times* says:

"The Senate now stands forty-one Republicans, thirty-two opposition, and one vacancy. The expulsion of the three Senators named and rejection of Pinchback would make the Senate stand: Republicans, thirty eight; opposition, thirty-two. Democrats would be returned from the four States named, which would give the Republicans a majority of two, counting Alcorn, of Mississippi, and Hamilton of Texas, neither of whom is regarded as strong in the Republican faith. In such an event the defection of either Alcorn or Hamilton would make the Senate a tie. This is the cheerful counting of chickens by the Democrats."

WESTWARD THE STAR OF EMPIRE TAKES ITS WAY.

The *Herald* asks "have eastern democrats any rights western democrats are bound to respect?" And proceeds to arraign the west for the partiality displayed in the distribution of the honors of the House. Chickens are very apt to come home to roost, and the *Herald* overlooks the long vassalage of the west to the east, and that the young giant has grown to man's estate and to man's vigor, and begins to take some comfort in the fact. New England with its little territory and comparatively small population, has ridden rough shod over the young giant, when its bones were soft, and when its joints were not yet knit. It dictated a commercial policy which made the vast resources of the west as so much dead matter on its hands. It imposed tariffs that enriched its own interests and starved those of the west. It has triumphed though a system in full vigor while the western empire was yet unborn.

Now the west feels its strength, feels its power, and asserts its equality. The north has nothing to complain of what is a natural operation of the principles of rotation. The turn of the west has come. We doubt if the *Herald*, in its tone of complaint, really represents the feelings of its section, but that northern members of Congress feel the justice of the claims of the west, and will harmonize cordially on all questions involving the interests of the country, and the real objects of the party.

THE FIRST BATTLE IN THE HOUSE.

The presentation of the certificates of Messrs. Spencer and Morey, contesting claimants from Louisiana, led to the first crossing of blades of the session. The result was the admission of the latter, claiming under the Kellogg seal, which result is claimed as a Republican triumph. It may be simply regarded as a superior display of parliamentary skill on the part of Mr. Blaine, the acknowledged and able leader of the Republicans, over the rather rude and inconsiderate tactics of Fernando Wood, who is *not* an acknowledged leader of the Democrats. Mr. Lamar came into the aid of Wood, not because he approved his proposition, but to break his fall, and the prompt suggestion of Judge Holman cleared the subject of all difficulties, and ended in the admission of Mr. Morey amid the good humored concurrence of the whole House. The readiness with which the Democratic side followed Judge Holman shows coolness and self-possession, and shows very clearly that it is not going to be lead off to follow blindly any self-assertion of leadership.

If there is any victory at all, it was a personal one of Blaine over Wood. The Democratic party came out of the trial in such a way as to inspire additional confidence in its judgment, and in its determination to avoid all useless contention, and by deferring the exhumation of dead issues for a more convenient season.

THE SOUTHERN PACIFIC.

A few days since the Baltimore *Gazette* facetiously called attention to a significant notice newly inscribed upon the Halls of Congress "NO MORE SUBSIDIES GIVEN HERE."

He who runs may read, and no one may more surely read his future in the warning conveyed in these few short words, than Tom Scott. Thereon hinges the fate of the Southern Pacific. No more subsidy, no more rail road.

The South might feel the stunning effects of the warning which closes the door to the realization of its fondest hopes, if it did not know that it was less the sufferer than Tom Scott. If the application of a subsidy was really to give the South an even chance, if it was placed in fair competition with the northern interests to be served by the Southern Pacific, then, as a matter of even handed justice on the part of the government it might accept, without the consciousness of violating any principle, the aid of national credit or national money for the construction of the road. But now it is willing to forego any such anticipations, and wait until a really Southern measure is perfected.

With St. Louis as the real eastern terminus of the road, the South can not be made to believe that the liberty to construct branches from Fort Worth eight hundred miles west of Vicksburg satisfies its claims. The main trunk line will still be from Fort Worth to St. Louis, and the tremendous preponderance of northern influence will retain it as such. The Pennsylvania Rail Road Company, enormous in its capital, insatiate in its avarice, stupendous in its ambition, will be satisfied with nothing less than the lion's share of the control and of the profits. Does that corporation, does the North owe any thing of generosity to the South? Does it or they act upon any principle of justice to the South, any recognition of the fact that the South has an equal share in the bounties of the government? No. It is with them a simple question of profit, a feasible and cheap way of competing with the giant monopoly of the present connection with the Pacific, and restoring to the Pennsylvania company something of the prestige and power it is in danger of losing.

We believe our Congressmen will be on their guard even when they find on the side of Tom Scott so influential and potent a Southern name as that of Gen. Beauregard.

The Richmond *Whig* says:

If a Southern Pacific road is ever built, it must be as a measure of justice to our people, and when the North is willing to concede it to us on that ground we have faith to believe that they will magnanimously give us a Southern road in fact as well as name—one which will not break the promise to the lip. We are therefore not in a hurry. Scott's plan will forever preclude such a result, and therefore we are unalterably opposed to it.

The Khedive After Abyssinia.

The announcement that fifteen thousand additional troops have been sent from Egypt against Abyssinia shows the meaning and determination of the Khedive in that direction. These troops are well disciplined, well armed and under the command of American, French and Italian officers in the service of the Khedive, and will be able to defeat double the number of their opponents. Many of the Egyptian soldiers have been in Abyssinia and are familiar with the country, and in general the Khedive's men are more intelligent, have a firmer stamina, are better instructed in the art of war, and therefore better soldiers in all respects than the Abyssinians. During the late war between England and Abyssinia, the armies of the latter power could make no stand before their opponents and there will be the same result when the Khedive begins war in earnest. He will overrun Abyssinia in full accord with his plan and what is taken will be held and garrisoned for permanent occupation. With the valley of the Nile in his possession; with a foothold on the Indian Ocean, and a flank position from which to move upon the most available point of Abyssinia, the end of the struggle can neither be doubtful nor protracted. The Khedive understands the value of first blows, and therefore he sends enough men into the field to put them decidedly in his favor. If the other powers do not interfere, and that is not likely at the present time, Egypt will soon absorb Abyssinia and thus realize one of the dreams of the Khedive.—*Philadelphia Times.*

The New York *Tribune* of Wednesday says:

"The reports from St. Louis and Washington about Gen. Babcock's alleged indictment are contradictory. One says he has been indicted; another that the indictment has been held back; a third that the Government knows nothing about any steps for an indictment. All agree that the Grand Jury has been considering it. The speech of ex Senator Henderson, in a previous case, would seem to show that the Government contemplated it. There is very little doubt that some members of the Government believed two days ago that it had been found."

Mr. Lamar's speech on taking the chair of the Democratic caucus was a careful conservative and statesmanlike utterance, which will increase the esteem in which this able representative of the South is held in all sections of the country. His attack upon the protective tariff may not meet with favor in Pennsylvania but there is no State in which his manly appeal for union and brotherhood, for national honor and constitutional government, for economy and integrity and for the just and equal rights of all true patriots. It will be well for the country if Mr. Lamar has truly struck the keynote of the opening session.—*Philadelphia Times.*

HE WOULD STAY.—A little fellow who was at a neighbor's house about noon the other day watched the preparations for the dinner with a great deal of interest, but when asked to stay and eat something, he promptly refused. "Why, yes, Johnny, you'd better stay," said the lady; why can't you?" "Well, 'cause," said the little fellow, "ma said I musn't unless you ask me three times." They invited him twice more right off.

There was not, among the 161 Congressmen who participated in the proceedings of the Democratic caucus, a gentleman better entitled by rugged honesty and uncompromising principle for the responsible position to which he was chosen. The Democracy have put forward one of their best men in the place where manhood is most required. Certainly this is a gratifying, and, we cannot help saying, a noble beginning for the Democratic majority of the new House, the choice of Kerr.—*Buffalo Courier* (Dem.)

Third Termism finds a friend or two at the West, to the great wrath of most of the Republican papers. *The Springfield* (Ohio) *Republic* remonstrates with *The Dayton Journal* for declaring that it will support Grant again if he is nominated. It was heartily in favor of Grant for two terms, it says, but has now had enough of a good thing.

Ex-Senator Matt Carpenter, in his letter to the Chicago *Tribune*, which charged him with being connected with the Milwaukee whiskey frauds, says: "If your charges are true, I am a disgraced man; if not, you are; and which is the villain we will submit to the determination of a jury."

A noble fellow that tramped returned a five dollar bill he said he had found in an old vest a Norwich gentleman had given him. His honesty was rewarded with a one dollar bill, and the next day the five turned out to be a counterfeit.

The *American Grocer* says that the decline on Rio coffee is fully two cents in gold, since the *Grocer* exploded the short crop theory. Still the coffee ring is not discouraged, but asks Congress to put a heavy tariff on coffee, in order to add to its profits.

Mr. Floyd, of Wallack's Theatre, New York, has received from the managers of the Catholic Orphan Asylum, of that city, a set of diamond buttons in recognition of his services as manager of the recent benefit to the asylum at the Academy of Music.

"A friend in need is a friend indeed," and such Dr. Bull's Cough Syrup has eminently proven itself to be Thousands of testimonials. Try it. Price, 25 cents.

Senator Jones, of Nevada, has had a private car built for the exclusive use of himself and family. It is a richly furnished house on trucks, and cost $11,000.

Burglary by Tramps.—A Schoolhouse Broken into and Robbery—Pursuit and Capture of the Perpetrators—The Tramp Nuisance in New Jersey.

A dispatch from Trenton, N. J., dated December the 5th says: Five degraded specimens of humanity, belonging to the tramp tribe, named James Barry, William Smith, William Henry, James Kane and Charles Smith, broke into a schoolhouse at a place called Valley, on the Belvidere and Deleware railroad, about ten miles from this city, last evening, and seizing all the plunder available in the way of school books, &c., fled across the country. On the robbery being made known soon after its occurence, a party of farmers and others dividing into scounting squads and started in pursuit of the miscreants.

After an exciting chase across hills and hollows, ditches and hedges, the scoundrels were captured and brought to a village called Titusville, where they were arraigned before Squire Atchley. Some of the stolen property was found in their possession. The squire, after a hearing, remanded them to the Mercer county jail in this city for trial. They were safely lodged there last evening by a strong body of constables.

Clad in rags and filth, their features were pictures of hunger and want, and their demeanor defiant and vicious. They created anything but a favorable impression. This part of the state is literally overrun with this class of criminals, and as the cold weather sets in they are alarmingly on the increase.

A CORRESPONDENT TO THE DOCTORS.—The New York *Times* pays a happy and handsome tribute to the doctors. It says:

Among the medical men in good standing the standard of professional honor is very high. The Hippocratian oath is no mere empty form of words: it embodies an ever-living sentiment and a law of action. A good physician, one sound in knowledge and pure and benevolent in life, as so very many of this profession are, occupies a position than which there is none more worthy of honor. And it is undoubtedly true that, largely profitable as the practice of a physician of marked ability becomes in a wealthy community, there is more real work done by this profession from motives of pure benevolence than by any other. They sometimes insist sharply upon their rights with those who slight their services; but as a body they are ready to help, to comfort, and to heal, thinking of this first and their reward afterward. And those rewards, however large they may be, are well earned. A physician cannot call any hour his own of night or day; and the wider his practice the less his becomes his own, and the more it is weighted with the gravest responsibility.

It must be admitted that the election of Mr. Kerr puts the majority of the House of Representatives in a much better position than there seemed to be a reason to fear that it would take. There is, of course, time enough for it to make mistakes, but there is less danger that it will make them than there was before Saturday's caucus met. At least it has begun right, and thus has the advantage of an impulse in the right direction; while it might very easily have begun wrong. We believe that the Democrats, in taking practical possession of one branch of Congress for the first time in fifteen years, could do nothing better calculated to secure the respect and confidence of the country than they could do in electing Mr. Kerr as its presiding officer. We say that good citizens, of whatever party, ought to rejoice at this fair beginning.—*N. Y. Evening Post (Rep.)*

Tweed has not turned up, and is no doubt safe on the seas by this time. The general verdict is that the country is well rid of him, and that after the imprisonment already inflicted on him, exile and forfeiture of his property, in satisfaction of the city's claims against him, constitute a pretty fair punishment for his crimes. *Phil. Times.*

The conduct of one Walter Dumont in rescuing thirteen of the passengers of the steamboat Sunnyside, lately sunk in the Hudson, is a noteworthy act of heroism, done as it was at the risk of his own life.

In Baltimore an extensive agency for taking young ladies from Northern cities to various cities in the South has been discovered to be a trap for wicked purposes.

The Baltimore *American (Rep.,)* says: "It would be folly to deny that the choice of Mr. Kerr for the Speakership is a triumph for the better element of politics."

A Western editor, who probably knows, says: "When a whiskey man goes before a United States District Court and pleads guilty, he causes other hearts to ache."

There is a town in Indiana named Possumglory, and one in Arkansas named Toperville.

"O wearisome condition of humanity!"

How many wretched homes in our land! How many heart-broken invalids! Life with many signifies a mere onerous existence. All are subject to disease but when health is removed the hope is nearly gone out. Sickness is usually incurred through exposure or carelessness. Especially is this true with those diseases peculiar to woman. Through her own imprudence and folly she is made to drag out a miserable existence—a source of annoyance and anxiety to her friends, and anything but a comfort and pleasure to herself. Exposure to the cold at times when she should be most prudent and overtaxing the body with laborious employment are both fruitful causes of many of the maladies from which she suffers. Gradually the bloom leaves her cheeks her lips grow ashy white her vivacity departs, she continually experiences a feeling of weariness and general languor, and altogether presents a ghostly appearance. What does she need? Should she take some stimulating drug, which will for the time make her "*feel better*," or does her entire system demand reparation? She requires something which not only will restore to health the diseased organs, but will tone and invigorate the system. Dr. Pierce's Favorite Prescription will do this It imparts strength to the diseased parts, brings back the glow of health, and restores comfort where previously there was only suffering.

Every invalid lady should send for "The People's Common Sense Medical Adviser," in which over fifty pages are devoted to the consideration of those diseases peculiar to Women. It will be sent, post-paid, to any address, for $1.50. Address R. V. Pierce, M. D., World's Dispensary, Buffalo, N. Y. Agents wanted to sell this valuable work.

The Death Bed of Andrew Jackson

This is a new and elegant engraving, published, and portrays with graphic truthfulness and touching pathos, the last hours of the Great Statesman, with his friends and physician, grouped around. It is elegant in design, in finish, and artistic in execution, and should hang in every parlor and office in the land. It is printed on heavy paper, fourteen by nineteen inches, and will be sent postpaid by mail on receipt of thirty-five cents. We have hundreds of these pictures weekly; keep thousands in stock, ready to fill orders as soon as received.

NORTH CAROLINA

Mr. James Sledge, of Weldon, died on Sunday morning last.

The Hattreas telegraph hae been constructed as far as New River Inlet.

Gen. Robert Ransom, formerly of this State, is sick at his residence near Richmond, Va.

The Eastern Medical Association met in Wilmington on Monday. Dr. Geo. G. Thomas delivered the welcome address.

The Adelaide Phillips Italian Opera Troupe refused to play in Greensboro on Friday night last, although a paying house had assembled. The *Patriot* thinks that liquor and lager was at the bottom of the matter on the part of the agent.

Wilmington had a visit Tuesday from a number of the business men of Charlotte, the principal object of their visit being to ascertain the facilities for handling cotton in the former city, to enquire into the freightage of the staple and other matters pertaining to foreign and coastwise shipments and to cultivate closer and more intimate business relations between the two cities now suited by the rail.

Says the Greensboro *Patriot:* "The ladies of Greensboro have formed an "Orphan's Aid Association," for the purpose of raising funds during the winter for the orphans at Oxford and Mars' Hill. There are some fifty members and the following are the officers: Mrs. J. H. Dillard, President; D. A. Robertson, Vice President; J. A. Gray, Treasurer; Miss Rebecca Wilson Secretary; The first effort to realize funds will be an entertainment on Thursday night, Dec. 16th, in the Benbow Hall, consisting of tableaux, charades and vocal and instrumental music. Our ladies know no such word as failbence the public may expect a first-class entertainment. Admission as usual.

Says the Charlotte *Observer*: "It is rumored in railroad circles that, at the end of the present month, the morning train on the Richmond & Danville Railroad will be taken off, and what is now the express train, the one which arrives here at 8:45 p. m. will bring the mail from the North. This change, if it is made, is to decrease expenses. It will reduce the working force of the road about 25 hands. We sincerely trust, however, that the suspension of this train will not take place. There is no telling the amount of annoyance which it would entail, not only upon Charlotte but upon the other points along the road. The idea of our not receiving mail until night is unbearable; Charlotte can hardly recollect the time when she received her Northern mail at any other time than in the morning, and no arrangement might be made which would suit her as well as the present. We leave the question of travel entirely out of the question, as the inconvenience which will result to local passengers, is apparent. We indulge the hope that the rumor is incorrect."

[Cut this Out.]

IT MAY SAVE YOUR LIFE.—There is no person living but what suffers more or less with Lung Disease, Coughs, Colds or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. Dr. A. Boschee's German Syrup has lately been introduced in this country from Germany, and its wonderous cures astonishes every one that try it. If you doubt what we say in print, cut this out and take it to your Druggist, J. R. H. Harmer, Fayetteville street, Raleigh, and get a sample bottle for 10 cents and try it, or a regular size for 75 cents.

Mr. Kerr is a gentleman of unblemished character and recognized ability, and will bring to the discharge of the duties of his high position the experience of many years as legislator. His selection, under the circumstances, will be received by the people of the country as an indication of the better element of the Democratic party will be recognized hereafter in keeping control of the affairs of the nation.—*Washington Chronicle* (Adm. Rep.)

There has been an informal meeting of the National Democratic Committee at Washington, when the subject of the meeting of the next National Democratic Convention was discussed. Several members of the Committee favored St. Louis as the meeting place, and some Western city in any event. There will be a formal meeting of the Committee in February when the time and place will definitely be fixed.

Alas, poor Avery! Another of the President's friends gone to the penitentiary; and yet he was far above the average.

Mr. L. H. Fitzhugh, of Texas, the new Doorkeeper of the House, was formerly sergeant-at-arms of the Confederate Congress.

"Ninety and Nine" is pretty good, especially when Sankey sings it, but "Old Hundred" sees it and goes one better.

The health of Hon. A. H. Stephens, of Georgia, is still on the decline.

Yesterday's Mail

brought three more certificates in favor of "Cannabis Indica," the great East India remedy for consumption, bronchitas and asthma:

Send me one dozen Ointment and one of Cannabis Indica. Allan Mr. J. W. Fisher brought his wife to me for examination, I found her in the incipient stage of tuberculous Consumption. Then it was I concluded to make a fair trial of Indian Hemp, and now there is a genuine demand for those remedies. The ointment excels everything of its kind I ever saw or tried.

Fraternally yours,
P. A. SIFFORD, M. D.

China Grove, Rowan, N. C.

N. B. This remedy speaks for itself. One bottle will satisfy the most skeptical. Ask your druggist to get it. $2.50 per bottle, or three bottles for $6.50. Pills and Ointment $1.25 each.

As these are *imported* remedies we do not commission them, but will make *cash* agents everywhere.

NOON DISPATCHES.

The London Times on the Message.

LONDON, Dec. 9.—The *Times* commenting on the Message says: "If Spain cannot suppress the Cuban rebels; if the Island must be half ruined while she holds it, if she will not put an end to that institution which is the main source of disturbance, it would be hard to expect the United States to let the work of devastatoin proceed unchecked merely out of regard to the nominal sovereignty of Spain. Spain is on trial. The limits of her power to restore order will be the limits of her right."

MIDNIGHT DISPATCHES.

Congress.

WASHINGTON, Dec 9.—*Senate*:—Mr. Cooper presented a memorial from the book agents of the Methodist Episcopal Church, South asking compensation for loss at Richmond and Louisville during the war.

Mr. West presented a letter from W. L. McMillan of that State asking permission to withdraw his credentials as Senator elect from the State of Louisiana by the McEnery Legislature.

Mr. West sent to the clerks desk and had read a letter recently published by McMillan, giving his reasons for withdrawing his credentials. He submitted an order that the request for the withdrawal of the papers be granted, but objection was made by several Senators on the Democratic side, and it was laid over.

Bogg introduced a bill authorizing the payment of duties on imports in legal tenders and national bank notes. It provides that from and after July 4th, '76, duties on imports may be paid in legal tenders and national bank notes or coin at the option of the importer.

After executive session, adjourned to Monday.

A large number of nominations including Chandler, as Secretary of the Interior, Pierrepoint Attorney General, Merrier, Minister to Belgium, Gibbs, Minister to Peru, New, Treasurer, Burham, Assistant Secretary of Treasury, Major Robt. McFreely Commissary General to rank as Brigadier, Col. Wm. McKee Dunn, Judge Advocate General to rank as Brigadier, and all revenue officers and postmasters who have been appointed during the recess. No new nominations. Confirmations of Chandler, Pierrepont, New, John C. Smith, Commissioner of Indian affairs, were made.

The Attorney General to day sent a telegram to the United States Attorney Dyer, at St. Louis, saying that advices had reached him to the effect that Special Counsel Henderson had in the course of the Avery trial made an attack upon the President, and assuring the United States Attorney that the department will not continue to pay the Special Counsel for this kind of service.

Domestic Miscellany.

NEW YORK, Dec. 9.—The mail advices state that the main shaft of the Amerique broke 13½ days distance from France. The passengers rushed from their berths, but anxiety was soon allayed, and they returned to sleep. Five hours after the China was signalled. Only 13 passengers, including two ladies desired to leave the Amerique. The English Company owning the China declined pay for their services.

The Babcock Military Commission.

CHICAGO, Dec. 9.—Genl's. Sheridan, Babcock and Terry composing the court of inquiry appointed at the request of General Babcock to consider the questions raised in the prosecution of whiskey cases at St. Louis affecting his reputation, met at noon to-day and decided the court should hold an open session. Maj. Gardner, recorder, stated that on account of the lack of witnesses nothing could be done to-day. Adjourned to noon tomorrow.

The Wreck of the Steamer Deutschland.

The following are the particulars of the loss of the steamer Deutschland, of which mention has already been made in our telegrams:

LONDON, Dec. 7.—The steamship Deutschland, of the North German Lloyds, from Bremen December 4 for New York, went ashore Monday morning on the Kentish Knock Sands, a few miles off the mouth of the Thames.

This morning a boat came ashore near Rochester containing one man, named August, and the bodies of two others. The two dead men had perished from long exposure, having been in the boat for thirty-eight hours. One of them was named Forsenstein and the other's name is unknown. The Deutschland had been laid up in Bremen since February, and this was her first trip since then. Her officers were all new. The tide of immigration at this season is slack, and her passengers were comparatively few. There were probably 150 persons, including emigrants and crew on board, and fifty of the passengers and crew are supposed to have been lost. Part of the passengers and crew are supposed to have been lost. Part of the passengers and crew landed at Harwich this afternoon.

The following is a verbatim copy of Lloyd's telegram from Harwich in regard to the Deutschland:

"The steamer Deutschland, from Bremen for New York with emigrants grounded on Kentish Knock, at five o'clock Monday morning, during a heavy northeast gale. The weather was thick with snow. The crew and passengers were drowned. The Deutschland has beaten over the Kentish Knock, and is now in 4½ fathoms low water. She has apparently parted amidships. When Captain Breckenstein left the steamer she was full of water, which was rising and falling with the tide. Assistance has been sent to the Deutschland."

7:30 P. M.—Capt. Breckenstein and part of the passengers and crew of the steamship Deutschland have just landed at Harwich. It is supposed that about fifty of the passengers and crew were drowned. The Deutschland is now on the Long Sands still further toward the Essex shore of England than the Kentish beach. Two tugs and a life boat have proceeded to the scene of the disaster.

FURTHER FROM THE DISASTER STATEMENT OF THE QUARTERMASTER.

LONDON, Dec. 7.—The agents of the North German Lloyds Steamship Company state that the steamer Deutschland had two first-class cabin, twenty-four second-class and ninety-seven steerage passengers. The commander of the British man-of-war Penelope telegraphs from Harwich to the Admiralty that fifty lives have been lost. The remainder of the passengers and crew have landed at Harwich, where they are under the care of the German consul.

Quartermaster August, in his statement, says that the name of the captain of the Deutschland is Bussius. The steamer left Bremen Sunday morning and struck the Knock on Sunday evening. Every effort was made to get her off but in vain. The sea washed over the ship, carrying away much of her gear. The captain kept very cool. Immediately after the ship struck he ordered life-belts to be distributed among the passengers and crew.

The next morning, as it was thought the ship was about to break up, the order was given to lower the boats. August and two seamen were detailed to man one of the boats, which capsized twice in lowering. When she righted they drifted away from the steamer. They tried to pull back, but could not. A heavy snow storm prevailed, and the weather was piercing cold. His two companions perished from the exposure. August says the crew numbered 130. When he last saw the steamer, endeavors were being made to launch all the boats.

THE RESCUED.

LONDON, December, 8, 3:30 A. M.—The *Advertiser* reports the total number of persons rescued from the Deutschland to be 150. Twenty-five mail bags were saved.

FARMING INTERESTS.

DOES IT PAY TO COOK FOOD FOR STOCK?—We will state that our farm contains 800 acres, and we generally feed one hundred head of cattle on grass in summer, and we fatten each winter about forty head of cattle in the stable. We raise from forty to fifty acres of wheat, twenty to thirty of oats, twenty of corn, and three or four acres of Swedish turnips. Our engine is a five-horse boiler, something more, with engine attached to its side. And this threshes our grain, cuts and steams the fodder, pumps the water, saws the wood, and does the churning, and thus is very handy to have on the farm. We have three steam-boxes, holding one hundred bushels each, and one of these filled with cut straw, two hundred pounds of bran worth seventy-five cents per hundred, evenly mixed, moistened with water, packed in solid and well steamed, will feed sixty head of cattle three times for one day, all they will eat. Fattening cattle are fed extra. In this way, we can feed all our straw and cornstalks and poor hay, if we have any, with a little grain and bran, turn it all into quick, active manure to stimulate new crops, and can keep more stock, and at one third less expense than at the old way. Our stock comes out in better condition in the Spring, and we have no doubt, from our own experience, that there is a saving to us of fully one-third in the cost of wintering our animals. In feeding hogs, we find that two bushels of corn, ground and cooked, is a little better than four bushels of shelled corn. We have proved this by the best test we can give it. We have no hesitation in saying that our confidence in the economy of this mode of feeding strengthens with each year's experience, and we believe that it is destined to be practiced much more extensively in the future.—*Live Stock Journal.*

IMPROVED TOBACCO.—We have frequently urged our readers to try the experiment of raising tobacco from Cuban seed, as is done with great profit both in Florida and Connecticut, and we are, at last gratified by seeing that this improvement on an old industry has been adopted. We make this assertion on the authority of the Baltimore *Sun*, which says:

A tract of land was recently purchased in Virginia on which was to be tried the cultivation of Cuba or Havana tobacco. The party making this purchase and experiment, it is said, have succeeded in raising a double crop of a very fine quality. The product is being made up into cigars at a factory in Caroline, Va., which are selling as rapidly as they can be manufactured at $20 per thousand. He asserts that the genuine Cuba tobacco can be raised in Virginia, and equal in every respect to the original product. Farming lands are said to be offering at very low prices, and it would not be surprising, ere long, to see, "real Havanas," of Virginia tobacco and make in the markets.

We are not prepared to agree that what Colonel Byrd called "the delicious vegetable" can be raised here of equal excellence with that produced under the skies of Cuba, but we are clearly of opinion that tobacco, for the manufacture of cigars, can be grown in many parts of the State of such a quality as to command the most remunerative prices. In this belief we have reproduced our extract from the *Sun* in the hope that the subject thus brought before the notice of our readers in North Carolina and Virginia may be made a matter of experiment.—*Norfolk Landmark.*

I inform my Customers and the public that having bought my Second Stock of FALL and WINTER GOODS exceedingly low, I will offer my entire Stock for the next 60 days at greatly reduced prices, and will assure one and all that they can save money by calling on me before purchasing elsewhere. My Stock consists of DRESS GOODS—Alpacas, Prints, Bleached and Brown Domestic, Blankets, Quilts, Shawls, Flannels, Linseys, Cloths for Men and Boys' Wear, Hats, Boots and Shoes, White Goods, Notions and Hosiery.

Also Ready-Made Clothing and Mens' Furnishing Goods, Trunks and Valisies.

I would call attention to the Patent Reversible Shirts, of which I am agent. Call and examine them. There are a great many advantages in the wear of them. The invention relates to improvements in Shirts in which the bosom can be readily changed so as to present to view different patterns and can be washed, starched and ironed as readily as any ordinary Shirt.

My stock of Ready-Made Clothing which has been replenished lately, is complete and will also offer extraordinary inducements to buyers in that line for the next 60 days.

Thanking the generous public for their kind patronage heretofore bestowed upon me, I hope to increase the same by paying strict attention to my business and offer GOODS AT BOTTOM PRICES.

THE OLD NORTH STATE

Vegetable Stomach Bitters,

PREPARED BY:

C. G. LANIER,

Hickory, N. C.

In offering to the public for their use and relief the

Old North State Vegetable Stomach Bitters,

I feel no hesitancy in saying this is the purest and best article ever offered them.

I warrant each bottle to contain NO chemical whatever—nothing but the best vegetable preparation, (See recommendation of physicians,) and the purest Domestic Whiskey.

In preparing this excellent tonic I have spared no pains or cost to make it just what I recommend it to be—

The Very Best Tonic ever offered to Invalids and Others, and without the usual cry of "Encourage Home Enterprise," I would say to all the suffering—Throw away the filthy and worthless drugs sold you heretofore by would-be "all cures," and try one bottle of

The Old North State Bitters,

and if then you will say you have not been benefitted by its use, I will return to all such their money.

OLD NORTH STATE BITTERS

cures all the diseases of the Blood, Gravel, Gout, Incipient Dropsy, Rheumatism, Colic, Pain of the Stomach and Bowels, and is peculiarly efficacious in all ordinary cases of Obstruction in the Kidneys, Bladder and Urinary Organs. Relieves Dyspepsia, whether acute or chronic, General Debility, Sluggish Circulation of Blood, Indigestion, want of Assimilation of Food and Exhausted Vital Energy!

OFFICE OF THE
SECURITY LIFE & ANNUITY CO.,
New York, Nov. 1st, 1875.

TO OUR POLICY HOLDERS
—AND—
FRIENDS IN NORTH CAROLINA.

Maj. R. G. Hay, our late General Agent for your State, having retired from our service to go to another field, we beg leave to notify you we have appointed Dr. T. W. Hutson, of South Carolina, one of our old and tried agents, as his successor.

We beg leave to assure you of the continued prosperity of your Company, and to ask your earnest assistance in advancing our mutual interest by increasing its business.

We respectfully refer you to Dr. Hutson's card below.

Very respectfully,
ROB'T. CASE, President.

BRANCH OFFICE,
SECURITY LIFE INS. & ANNUITY CO.,
Raleigh, N. C., Nov. 1st, 1875.

REFERRING TO THE ABOVE Card, by which your attention is called to my appointment as General Agent for North Carolina, I think it but proper to state for your information, that I have been connected with the Security Life Company in the State of South Carolina since the year 1868; that the Company has met with great success in that State, having now a larger number of Policies in force than any other Life Company doing business in that section; that it has UP TO THE PRESENT TIME PAID ALL ITS LOSSES, without a SINGLE EXCEPTION, NEVER HAVING LITIGATED A CLAIM. I am happy to inform you its record IS THE SAME IN THIS STATE.

You may rest assured your interest will be duly cared for by me. You will be notified when your payments become due, which payments you will please make at my office, personally or by sight draft, post office order or by Express, upon receipt of which you will have promptly sent you Company's receipt.

Very respectfully,

AGENTS WANTED

FOR THE

PENN MUTUAL LIFE INSURANCE COMPANY OF PHILADELPHIA.

This Company is purely mutual. No stockholders to absorb profits. Every policy holder is a member of the Company, entitled to all its advantages and privileges, having a vote at the annual election for Trustees. It is the easiest Company to work because it gives satisfaction to its patrons, for the reason that it has declared MORE DIVIDENDS IN NUMBER and of a LARGER AVERAGE PERCENTAGE than any Company in the United States. Official reports show this. For example: Policy 16, for $5 000, has been paid to the widow of a Philadelphia merchant, upon which twenty-three dividends had been declared, averaging (57) fifty-seven per cent. This Policy, at the end of 23 years, had the dividends been used to purchase additional insurance, would have been worth $11 06. Any reliable agent who wants to work for this Company will address
